DETAILED ACTION

Priority

If applicant desires benefit of a previously filed application under 35 U.S.C. 119(e) and 120 specific reference to the earlier filed application must be made in the instant application. For benefit claims under 35 U.S.C. 120, 121 or 365(c), the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of the applications. This should appear as the first sentence(s) of the specification following the title, preferably as a separate paragraph unless it appears in an application data sheet. The status of nonprovisional parent application(s) (whether patented or abandoned) should also be included. If a parent application has become a patent, the expression "now Patent No. ____" should follow the filing date of the parent application. If a parent application has become abandoned, the expression "now abandoned" should follow the filing date of the parent application.

If the application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. If the application is a utility or plant application which entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the specific reference must be submitted during the pendency of the application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2)(ii) and (a)(5)(ii). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or

120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A benefit claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed benefit claim under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) the reference required by 35 U.S.C. 120 or 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

In the first sentence on page 1 of the specification applicant, claims priority under 35 U.S.C. § 119(e) to Provisional Application Serial No. 60/347,806, filed on January 10, 2002. Applicant is not entitled to priority under 35 U.S.C. § 119(e) to Provisional Application Serial No. 60/347,806 because the provisional application was abandoned before the filing date of the instant application.

The first sentence on page 1 of the specification fails to set forth the include the relationship (i.e., continuation, divisional, or continuation-in-part) of the Patent Application Serial No. 10/339,807 to this application. It appear that this application is a continuation-in-part of Patent Application Serial No. 10/339,807. Patent Application Serial No. 10/339,807 claims priority under 35 U.S.C. § 119(e) to Provisional Application Serial No. 60/347,806.

The Information Disclosure Statement

The information disclosure statement filed on September 16, 2003 fails to comply with 37 CFR § 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. A copy of each non-patent literature publication is not present in the file (IFW) of this application. The information disclosure statement has been placed in the application file, but the non-patent literature publications referred to therein have not been considered.

Claim Objections

In line 2 of claims 3-5, "the Anthrax microorganism" lacks antecedent basis. In line 2 of claims 8-10 "the pathogenic microorganism" lacks antecedent basis. In independent claims 1 and 6 the word microorganism is plural (microorganisms). If claims 8 and 9 are amended to change "microorganism" to --microorganisms--, the claims would be duplicates of claims 45 and 46, respectively. Correction of claims 3-5 is required. Claims 8 and 9 should be cancelled.

Allowable Subject Matter

Claims 1, 2, 6, 7 and 11-47 are allowed over the prior art of record.

Claims 3-5 and 10 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for investigating the presence of Anthrax (*Bacillus anthracis*) on a substrate comprising steps a) through c), in combination with the rest of the limitations of the claim.

As to claim 6, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for investigating the presence of pathogenic microorganisms on a substrate comprising steps a) through c), in combination with the rest of the limitations of the claim.

Conclusion

This application is in condition for allowance except for the above noted formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte*

Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
